Monthly Meeting
Tuesday February 11, 2014
Meeting Location:
Holiday Inn University of Memphis
Tennessee Ballroom

This month's presentation:

Selecting Efficient Fans; Fan Efficiency Grades and the Revisions to ASHRAE 90.1

This presentation will introduce the Fan Efficiency Grade (FEG) metric and how it is applied. Criteria and method for optimizing fan selection to minimize energy consumption will be presented. Revisions to ASHRAE 90.1 and IECC will be discussed.

Anthony J. Rossi
Vice President, Marketing
Greenheck Fan Corporation

Anthony (Tony) Rossi has over 30 years experience in industrial ventilation and has been with Greenheck Fan Corporation in Schofield, WI since 2003. Mr. Rossi has extensive knowledge in the laboratory fume exhaust field. Mr. Rossi has a bachelor's of science degree and a master's degree in mechanical engineering from the New Jersey Institute of Technology. An active member in ASHRAE TC 9.10, Lab Systems, he has also served on both ASHRAE and ARI standards development committees, as well the Education Committee Chairman for ASHRAE Central Indiana.

February, 2014

President's Corner

For those that went to the winter expo in New York, I am sure you had a great experience. I have down that seven people went, but it was probably more. We get PAOE points for everyone from the chapter that attended.

February 16th-22nd is Engineers week. The theme this year is "Let's make a difference." I would like to challenge each and every member to do just that, make a difference. There are several activities in which you can participate such as judging contests and special events at schools. If you have children or grandchildren, see if you can go and speak to his or her class that week. A ten to fifteen minute talk about what you do may inspire a child to become an engineer. Please let Forrest Exley or myself know if you have participated in any of these activities as we also get PAOE points for that.

We have a student appreciation month and a research and promotion month going forward. If you know any college students that would like to submit an application for the chapter scholarship, please let Forrest know. Also, research and promotion is an important component of this society. It funds what we do. Contribute early and often.

Thanks,

Ryan J. Hertter, PE
